former team knows nothing about defeat, but the Johnstons are going to take the conceit out of them tonight or know why.

Playing will begin promptly at 7:30, and each game will consist of only seven innings, thus avoiding a late hour to close.

COME, HELP YOUR-SELF TO HEALTH

Mr. J. **Euclid Miles** came from Pueblo, Colorado, not long ago, a perfect wreck, physically. He came direct to Santa Monica, where he could get the benefit of the sea breezes, and warm sunshine the year through, and gaze out on the flowers and green grass twelve months in the year.

His health soon came to him and his wife and with it happiness and contentment.

The next step was to build a beautiful residence. This he did on the corner of Fourth street and California avenue. It is one of the neatest and most convenient dwellings in Santa Monica. The large grounds surrounding it are equally as attractive as the dwelling.

He has many good words for Pueblo, but he is a **convert** here now. His old home is good enough for well people who want to make money and fight the elements, but for genuine comfort and happiness, he says, Southern California is the proper place to come to.

THE BEST POSSIBLE SQUIRREL POISON.

The best squirrel poison for the caroler but the worst for the squirrel is the poison that kills every time, or better yet that kills every squirrel who tackles it.
